REDI-MEDiC
Compliant First Aid Management

AED serviceAmerica.com
Preventive Maintenance Solutions

At AED SERVICE AMERICA our REDI-MEDiC team recognizes that your time is valuable! We'll inventory, stock, manage and maintain your first aid cabinets.

Annually, REDI-MEDiC techs perform a 100% refresh of your entire first aid cabinets to ensure you are always within expiration dates, remain fully stocked as well as OSHA/ANSI compliant.

Additionally, your REDI-MEDiC tech will clean, sanitize, and inspect your cabinets whenever they perform a site visit.

There is never an additional fee for any supplies we refresh. NEVER!

Next, our REDI-MEDiC team will perform an annual inspection to inventory and stock any items used in the previous six months.

But wait there's more. If you ever have an onsite emergency, your REDI-MEDiC Tech will visit you within 48 hours of being notified to manage and maintain your cabinet at no cost to you. Beyond that you will receive our REDI-MEDiC 365 total protection coverage.

Between scheduled site visits, you can use our REDI-MEDiC 365 easy order, entry system. You can place an immediate order with us anytime you like (24/7/365) from any smartphone or computer.

Need a box of band-aids, aspirin, or gauze, REDI-MEDIC 365 has you covered. We will express ship your order directly to you the same day we receive your order. With AED SERVICE AMERICA you will always be protected with REDI-MEDiC.
